### Guest biology workshop organisers

**Gerry Rayner**  
Monash University

**Tania Blanksby**  
La Trobe University

**Mary Familiar**  
The University of Melbourne

### ASELL Objectives

The ASELL project aims to improve the quality of learning in undergraduate science laboratories by making available student tested, peer reviewed experiments which are scientifically and educationally sound.

### Upcoming National ASELL Science Workshop

**Dates:** 2-5 April 2013

**Location:** The University of Sydney

**Disciplines:** biology, chemistry, physics and allied disciplines

Universities are invited to send 2-person teams (one academic and one student). This is a great opportunity to showcase one of your practicals and for colleagues to network and view a range of practicals in a 'hands on' format. This workshop will include a mixture of discussions and laboratory-based activities. It has been suggested that institutions submit experiments are considered good and experiments or need major improvement.

**Cost:** AUD\$660 (AUD\$600 plus GST) per team covering registration and food

**Due date for expression of interest:** 25 January 2013 (deadline extended) contact Alexandra Yeung
